

## The Key Role of Construction in New Hampshire's Economy

- The industry **employed 29,600 workers** in December 2007, 5% of the state's nonfarm employment of 648,100 and an increase of 1% from one year before. Nationally, construction accounted for 5% of nonfarm employment but fell 2.9% over the year as homebuilding shrank.
- Construction **contributed \$3 billion to state GDP** of \$56 billion in 2006.
- **Annual pay** in 2006 in construction averaged \$46,895, 9% more than the private sector average of \$43,028. Nationally, construction pay averaged \$44,496, 5% more than the national private sector average of \$42,414.
- **Small business** is big in construction. New Hampshire had 4,903 construction firms in 2005, of which 94% employed fewer than 20 workers. In addition, New Hampshire had 21,351 construction firms without employees, mainly sole proprietorships, in 2005.
- New Hampshire's **population** grew 0.3% from July 2006 to July 2007, 39th fastest of all states; the national growth rate was 1%. Population growth affects the demand for many types of construction.
